

LAUNDRY SOUR

LS-350

CONCENTRATED LAUNDRY SOUR AND IRON STAIN REMOVER

DESCRIPTION:

SURTEC LAUNDRY SOUR is a balanced blend of organic acids to give a maximum effect of neutralizing excess alkalinity in laundry work. It also removes rust and helps to prevent yellowing. It may be used prior to the final rinse cycle or may be used with the softener in the final rinse cycle. Recommended where dissolved iron in water can be a problem.

COLOR: Clear Liquid

For institutional laundry use only.

Use SURTEC LAUNDRY SOUR under normal or hard, hot or cold water conditions to neutralize excess alkalinity.

DIRECTIONS:

Use 2 - 4 oz. per 100 lbs. of fabric, adjust the usage to achieve a final pH of 5.5 to 6.5. Pre-sort laundry prior to wash. Pre-soak and/or pre-spot laundry when necessary. Place proper amount of soiled linen into laundry machine. In wash cycle, inject a recommended liquid laundry break and a recommended liquid laundry detergent or inject a recommended break and suds directly from shipping container. When souring and softening in the final rinse cycle, inject this product into the laundry machine directly from the shipping container. A final pH of 5.5 - 6.5 is recommended for linen.

DO NOT MIX WITH CHLORINE BLEACH.

NOTE: Concentrations will vary due to environmental conditions and load size. Your sanitation-specialist will adjust properly to meet your needs.

PRODUCT FEATURES / CUSTOMER BENEFITS

- Concentrated / Economical use costs
- Acid-neutralizer / See MSDS for instructions
- Non-foaming / Maintains maximum pump efficiency for best cleaning results.
