SURTEC[®] "CERTIFIED" GREEN 947 CARPET EXTRACTOR

EC-947

CARPET EXTRACTION CLEANER CONCENTRATE

DESCRIPTION:

947 CARPET EXTRACTOR utilizes unique carpet extraction surfactant chemistry to provide deep, complete cleaning, in order to restore carpet that is dingy or worn out in appearance. 947 CARPET EXTRACTOR starts with a detergent cleaning system that does not leave soil-attracting residue, coupled with new, special soil emulsifiers designed to completely emulsify and rinse out old soil and detergent residues, leaving carpet as close to new condition as possible and optimally clean.

947 CARPET EXTRACTOR is safe for use on fabrics and carpet that are unaffected by water, including nylon, rayon, olefin, wool, and other synthetic and natural fibers. Always test an inconspicuous area prior to use.

DIRECTIONS:

947 CARPET EXTRACTOR is a concentrate and must be diluted prior to use. Dilute one part 947 CARPET EXTRACTOR with 50 parts water (2.5 oz/gal). For heavily soiled carpets, use 943 CARPET SHAMPOO first, followed by 947 CARPET EXTRACTOR.

Prior to extracting, carpet should be vacuumed thoroughly with a vacuum equipped with a carpet beater bar, or with a pile lifter. Apply the 947 CARPET EXTRACTOR solution to the carpet using minimum liquid necessary for acceptable cleaning. After carpet extraction is complete, brush carpet pile all in the same direction. Allow carpet to dry completely before opening to traffic. If excessive foam is encountered in the recovery tank, use SURTEC AF-410 Defoamer at 1 oz. per 5 gallons of tank capacity.

SPECIFICATIONS:

COLOR:	Tan
ODOR:	Mild
pH:	8.6 ± 0.2 (concentrate) 8.5 ± 0.5 (1:50 dilution)
HMIS RATING	Health =1 Flammability = 0 Physical Hazard = 0
FLASH POINT:	None (C.O.C. Method)
DILUTION USE RANGE:	1:50
COVERAGE (approx. - actual may vary):	10,000 sq. ft. per gallon at 1:50 dilution
DETERGENT TYPE:	Nonionic/anionic
SPECIFIC GRAVITY:	1.06
DENSITY:	8.8 pounds per gallon
SOLUBILITY IN WATER:	100% (hard, soft and/or deionized water)
SHELF LIFE:	Minimum 1 year
FREEZE/THAW STABILITY:	Minimum 3 cycles (A.S.T.M. Test D-3209-82)
PACKAGE SIZES:	4 x 1 gallon jugs 5 gallon Twin Pack (2 x 2.5 gal. bottles/box)
