

# THE SURTEC SYSTEM

## Introducing Surtec Sur-Foam Foam Soap Dispensing System

*From the clean contemporary lines of the dispenser, to the unique push pad placement and rich luxurious foam soap, Sur-Foam by Surtec has the solutions for every hand soap need.*

### **Best in Class Features Include:**

**Guaranteed leak proof:** Soap dispenser pump is at the top eliminating leaking.

**Economical to use:** Each push yields .75 mL of rich soap vs. 1.5 mL per push for most bag-in-box liquid systems.

**Three thick rich formulas:** Choose between Foaming Luxury Hand Soap, Foaming Anti-Bacterial Hand Soap or Foaming Instant Hand Sanitizer for the best fit in your facility.

**Multi-lingual:** Each bag is individually labeled in English, Spanish and French for easy identification and use.

### **Wall Dispenser**

- **ADA compliant:** Large, convenient push pad located at the top rather than the bottom is ADA compliant requiring one hand and less than 5 lbs. of pressure to dispense product.
- **Large view window:** With this large window it is easy to monitor soap levels without guessing or opening dispenser to check.

Item #AD00610 Foaming Antibacterial Hand Soap
