THE DRY EXTRACTION CARPET CLEANING SYSTEM

HOST is a dry carpet cleaning system that carries liquid ingredients to the carpet fibers in a controlled way. The soft, organic, natural HOST SPONGES contain all the necessary liquid to dissolve and absorb both water based and oil based dirt. It's moistened with water and a blend of environmentally friendly ingredients. And because HOST is a low moisture cleaning system, **when you're finished cleaning, the carpet is dry and ready to use immediately.**
