PREPARE

LF-155

LOW FOAM HEAVY DUTY FLOOR CLEANER CONCENTRATE

DESCRIPTION:

PREPARE is a newly reformulated low-foaming floor cleaner designed for use in automatic floor scrubbers. It has been designed to give superior cleaning results at reduced costs when scrubbing all types of floor finishes. In addition, at proper dilutions, it may be used for many other surfaces not harmed by water, such as aluminum, plexiglas, painted surfaces, concrete, masonry, tile and terrazzo floors, etc. It may also be used with other equipment needing a low foaming, high strength surface cleaner. PREPARE mixes easily in hot or cold water, or hard or soft water with its built in water softeners. Consult SURTEC for specific recommendations.

DIRECTIONS:

Use PREPARE in an automatic floor scrubber for best results when cleaning floors. For floor cleaning or deep scrubbing, mix 1 to 4 ounces PREPARE per gallon of warm water in an automatic floor scrubber equipped with red, blue or green pads. For cleaning fixtures and walls, dilute PREPARE 2 to 3 ounces per gallon of water. For steam cleaning and general degreasing, dilute PREPARE 12 ounces per gallon of water (1:10).
