ENHANCE

FM-167

CLEANER, MAINTAINER & GLOSS EXTENDER FOR HIGH SPEED BURNISHABLE FLOORS

DESCRIPTION:

ENHANCE is a newly formulated cleaner designed to clean floors with floor finishes while making the floor finish much more responsive to buffing. Higher gloss with a hardened, more durable finish is the result. Slip resistance and safety are also improved, and with the hardened finish, recoat and stripping frequencies are reduced, allowing a better looking floor to be achieved with less maintenance. ENHANCE works best when a high speed buffing program is in place.

As a gloss extender, ENHANCE can be used to quickly rejuvenate high traffic wear areas, increasing the gloss and durability of the floor finish, leaving a freshly recoated appearance without the problems associated with constant recoating.

Best results are obtained when used on floors that have a good foundation of SURTEC SUPER GLOSS, EASY GLOSS 75, ULTRA II, FP-575, or other SURTEC high speed floor polishes, and are maintained with a high (or ultra high) speed maintenance program.

DIRECTIONS:

As a routine floor polish maintainer:

Mop floors or scrub with automatic scrubber using ENHANCE at 2 to 4 ounces per gallon of warm water. Allow to dry. Buff all floor areas with a high speed buffer.

As a gloss extender:

First, clean the floor with 2 ounces of DEEP SCRUB per gallon of water. Mix 1 part ENHANCE with 3 parts water, then wet mop the entire floor, applying the ENHANCE solution in the same manner as applying floor finish. Allow to dry. Buff all floor areas with a high speed buffer. For best results, use a buffer that turns 1000 RPM or higher.

SPECIFICATIONS:

COLOR:	Milk-white emulsion - dries clear
ODOR:	Mild
pH:	9.4 + 0.2 (concentrate)
	8.8 + 0.2 (2 oz. per gallon dilution with tap water)
HMS RATING	Health =1 Flammability = 0 Physical Hazard = 0
FLASH POINT:	None (C.O.C. Method)
DILUTION USE RANGE:	1:3 (gloss extender) to 1:64 (maintainer)
DETERGENT TYPE:	Nonionic/anionic
BIODEGRADABLE:	Yes
SPECIFIC GRAVITY:	0.99
DENSITY:	8.3 pounds per gallon
SOLUBILITY IN WATER:	100% (hard, soft and/or deionized water)
SHELF LIFE:	Minimum 1 year from date of sale
FREEZE/THAW STABILITY:	Minimum 3 cycles (A.S.T.M. Test D-3209-82)
PACKAGE SIZES:	4 x 1 gallon jugs
	5 gallon Twin Pack (2 x 2.5 gal. bottles/case)
	55 gallon drums
