916 FLOOR SHINE NZ

FM-916

NON-ZINC HIGH SPEED FLOOR MAINTAINER CLEANER & GLOSS RESTORER CONCENTRATE FOR NON-ZINC FLOOR POLISHES

DESCRIPTION:

916 FLOOR SHINE NZ uses new non-zinc polymer technology to deliver a product that cleans and prepares a non-zinc polish film (especially 955 ULTRA NZ) to respond to high speed buffing. 916 FLOOR SHINE NZ is used both as a cleaner/maintainer and floor polish restorer that works three ways simultaneously: it cleans the floor, hardens the finish, and brightens the gloss. This allows the maintenance contractor to recoat less frequently, while maintaining better gloss and durability than ever before possible. Best results are obtained when used on floors that have a good foundation of 955 ULTRA NZ or 953 ENVIROGLOSS, and are maintained with a high speed maintenance program.

CLEANING PRIOR TO BUFFING:

Mop floors or scrub with automatic scrubber using 916 FLOOR SHINE NZ at one to two ounces per gallon of warm water. Allow to dry, then buff all floor areas with a high speed buffer. For best results, use a floor buffer that turns 1000 RPM or higher.

FLOOR POLISH RESTORATION:

Clean floor using 912 NEUTRAL pH CLEANER diluted 1 to 2 ounces per gallon of water. Mop, or scrub on with a floor buffer or automatic scrubber. After floor is clean, apply 916 FLOOR SHINE NZ diluted 1:4 with water (32 ounces per gallon) with a clean wax mop. Let dry, then buff all areas with a high speed buffer equipped with SURTEC Champagne or Thermal Gloss pads.

SPECIFICATIONS:

COLOR: Milk-white emulsion - dries clear
ODOR: Mild
pH: 9.4 ± 0.2 (concentrate)
..... 8.8 ± 0.2 (1 ounce per gallon dilution with tap water)
HMIS RATING Health =1 Flammability = 0 Physical Hazard = 0
FLASH POINT: None (C.O.C. Method)
SURFACE TENSION: 29 dynes per cm. (at 2 oz. per gallon dilution)
DILUTION USE RANGE: 1:64 to 1:128 (Cleaner/Maintainer)
..... 1:2 to 1:4 (Gloss Restorer)
DETERGENT TYPE: Nonionic/anionic
BIODEGRADABLE: Yes
ZINC OR HEAVY METALS CONTENT: None
SPECIFIC GRAVITY: 0.98
DENSITY: 8.16 pounds per gallon
SOLUBILITY IN WATER: 100% (hard, soft and/or deionized water)
SHELF LIFE: Minimum 1 year from date of sale
FREEZE/THAW STABILITY: Minimum 3 cycles (A.S.T.M. Test D-3209-82)
PACKAGE SIZES: 4 x 1.9 liter container
..... 4 x 1 gallon jugs
..... 5 gallon Twin Pack (2 x 2.5 gal. bottles/box)
