

DEEP SCRUB
 DS-157
**LOW FOAM HEAVY DUTY
 FLOOR CLEANER CONCENTRATE**

DESCRIPTION:

DEEP SCRUB is a low-foaming floor cleaner designed for use in automatic floor scrubbers. It was developed to give superior cleaning results at reduced cost when scrubbing all types of floor finishes. Properly diluted, it may be used for many other surfaces not harmed by water, such as aluminum, plexiglas, painted surfaces, concrete, masonry, tile and terrazzo floors, etc. It may also be used with other equipment needing a low foaming, high strength surface cleaner, such as, pressure washers. With its built in water softeners, DEEP SCRUB mixes easily in hot or cold, or hard or soft water.

DIRECTIONS:

Use DEEP SCRUB in an automatic floor scrubber for best results when cleaning floors. For floor cleaning or deep scrubbing, mix 1 to 4 ounces DEEP SCRUB per gallon of warm water in an automatic floor scrubber equipped with red, blue or green pads. For cleaning fixtures and walls, dilute DEEP SCRUB 2 to 3 ounces per gallon of water. For steam cleaning and general degreasing, dilute DEEP SCRUB 12 ounces per gallon of water (1:10).
