### 5. FIRE-FIGHTING MEASURES:

**Fire Extinguishing media:** Use water spray, CO<sub>2</sub>, extinguishing powder, regular foam.

**Hazards during fire-fighting:**

Containers may rupture when exposed to extreme heat. Released oxygen from decomposition may support combustion.

**Protective equipment for fire-fighting:**

Wear NFPA-approved self-contained breathing apparatus, helmet, hood, boots and gloves.

### 6. ACCIDENTAL RELEASE MEASURES:

**Personal precautions:**

Use recommended personal protective clothing and equipment.

**Environmental precautions:**

Follow all Federal, State and Local regulations when storing and disposing of substances. Do not allow dissolved material to run off of work area, and material should be collected and disposed of in accordance with regulations. Keep product from entering storm drains. Do not allow material to enter sewer or drains. Material is an oxidizer and can increase the flammability of combustible materials. Consult local and federal guidelines for proper disposal of these materials.

**Cleanup:**

Sweep or vacuum up then transfer to suitable container for disposal.

12 months minimum

### 8. EXPOSURE CONTROLS and PERSONAL PROTECTION:

***Advice on system design:***

Provide local exhaust ventilation to control vapors for published exposure limits.

***Personal protective equipment (HMIS rating 'B'):***

**Eye protection:** Wear safety glasses with side shields or safety goggles to prevent exposure or full face shield if splash hazard exists.

**Skin protection:** Chemical-resistant gloves. Wear appropriate protective clothing to prevent possible skin contact.

**Respiratory protection:** Not normally required. Avoid generating dusts. Use proper NIOSH-OSHA particulate respirator if ventilation is inadequate.

**General safety and hygiene measures:** Exercise stringent hygiene practices to minimize exposure. This material contains a strong oxidizer which can support combustion. If contact occurs, wash any body part with soap and water immediately. Any organic materials contacted by dissolved product, including clothing and equipment, should be rinsed immediately or washed soon after contact. Wash hands after use, and before eating, drinking or smoking.

***Other protective measures:***

Nearby running water on the job site is necessary, should an accident occur.
