

ULTRA STRIP
 ST-237
**SUPER CONCENTRATE
 FLOOR POLISH STRIPPER**

DESCRIPTION:

ULTRA STRIP super concentrated floor polish stripper is formulated to quickly dissolve and emulsify polymer floor finishes, including ultra high speed floor finishes made difficult to remove from repeated burnishings over long periods of time. ULTRA STRIP quickly cuts through heavy build up, substantially reducing the amount of time necessary for stripping and amount of stripper required.

ULTRA STRIP is safe for use on vinyl composition tile, stone tile, concrete, terrazzo and other hard surface floors. It is also an excellent choice for the removal of waterborne concrete and masonry sealers. Do NOT use on wood or cork, rubber or asphalt tile or linoleum floors. Pre-test in an inconspicuous area; if in doubt consult SURTEC.

DIRECTIONS:

Dilute with 20 to 30 parts water for stripping most floor finishes. Dilute with 10 to 15 parts water for heavy build-up. If stripping of a "non-strippable" or exterior waterborne concrete or masonry sealer is desired, pre-test in an inconspicuous area with a dilution of 6 to 10 parts water for each part ULTRA STRIP.

Allow the solution to dissolve and emulsify old finish for 5 to 10 minutes before scrubbing. ULTRA STRIP's efficiency allows for fast and complete stripping without the need for harsh, abrasive stripping pads. LET ULTRA STRIP DO THE WORK FOR YOU. After scrubbing and pickup, rinse the floor thoroughly with clean water and allow to dry before application of new seal and/or polish.

Because of the chemical strength of ULTRA STRIP, be sure to protect walls, coving, elevator doors, adjacent carpeting, etc. from splashing of stripping solutions.

SPECIFICATIONS:

COLOR:.....	Clear
ODOR:	Citrus
pH:	14.0 (concentrate)
.....	12.8 ± 0.2 (1:20 dilution)
HMIS RATING:	Health = 3 Flammability = 0 Physical Hazard = 0
FLASH POINT:	Greater than 200° F. (C.O.C. Method)
DILUTION USE RANGE:	1:6 to 1:30
V.O.C CONTENT:	Less than 3% by weight at 1:30 dilution for Light Duty Stripping
.....	and at 1:20 dilution for Medium Duty Stripping
.....	Less than 9% by weight at 1:6 dilution for Heavy Duty Stripping
DETERGENT TYPE:	Nonionic
SPECIFIC GRAVITY:	1.0
DENSITY:	8.34 pounds per gallon
SOLUBILITY IN WATER:	100% (hard, soft and/or deionized water)
SHELF LIFE:	Minimum 1 year from date of sale
FREEZE/THAW STABILITY:	Minimum 3 cycles (A.S.T.M. Test D-3209-82)
PACKAGE SIZES:	4 x 1 gallon jugs
.....	5 gallon Twin Pack (2 x 2.5 gal. bottles/box)
.....	55 gallon drums
