

SWIFTCLEAN CARPET PROTECTOR

SV-422

FLUORO-CHEMICAL CARPET TREATMENT CONCENTRATE FOR ANTI-SOILING PROTECTION AND STAIN RESISTANCE

DESCRIPTION:

SWIFTCLEAN CARPET PROTECTOR is a fluorochemical carpet treatment specially formulated to impart anti-soiling and stain resistance properties to new and freshly cleaned commercial carpet. SWIFTCLEAN CARPET PROTECTOR coats the carpet fibers, and thus helps keep dry or oily soil from sticking to the carpet. Dirt releases easily with vacuuming, resulting in increased vacuuming efficiency, cleaner carpet and longer carpet life. SWIFTCLEAN CARPET PROTECTOR utilizes short-chain fluorchemical technology to meet the goal of the US EPA 2010/2015 Stewardship Program.

DIRECTIONS:

Dilute one part of concentrate to two parts water. Apply solution to new or clean carpet at a rate of 400 sq. ft. per gallon of ready to use protector. Apply with pump-sprayer with a wide fan spray pattern overlapping 50%. Use a pile brush while wet to comb protector into the carpet pile. Wipe overspray from baseboards, furniture, etc. immediately, or at least while wet. SWIFTCLEAN CARPET PROTECTOR may be applied to dry or damp (freshly cleaned) carpet.
