

TILE BRITE
 TB-800
SCUM & SCALE REMOVER CONCENTRATE

DESCRIPTION:

TILE BRITE is an acid based scum and scale remover formulated to thoroughly penetrate and remove soap scum, calcium deposits and rust stains from bath tubs, fixtures, shower tile, drinking fountains, cement, glass and chrome. TILE BRITE will not harm these surfaces when used as directed (cement and grout will be mildly etched).

DIRECTIONS:

TILE BRITE may be used undiluted if proper pretesting confirms the need for using it full strength; most applications will require diluting with 2 to 10 parts water. Dilute with up to 10 parts water for very light scale and soap scum. Dilute with up to 5 parts water for efflorescence, heavy lime scale and rust deposits. Apply to surface with acid pump-up sprayer, trigger sprayer, damp rag or sponge. Neutralize using properly diluted SURTEC HC-150 or SC-210, followed by thorough rinsing with clean water.

SPECIFICATIONS:

COLOR:	Pink
ODOR:	Pine
DILUTION RATE:	1:10 to undiluted
METHOD OF APPLICATION:	Acid-proof pump-up or trigger sprayer
pH (Concentrate):	0.7 ± 0.2
HMIS RATING:	Health = 2 Flammability = 0 Physical Hazard = 0
DETERGENT TYPE:	Nonionic
SPECIFIC GRAVITY / DENSITY:	1.1 / 9.2 pounds per gallon
FLASH POINT:	None (C.O.C. Method)
SURFACE TENSION:	29 dynes per cm. (at 1:10 dilution)
V.O.C. CONTENT:	Less than 1% (Concentrate)
SOLUBILITY IN WATER:	100% (hard, soft and/or deionized water)
FREEZE/THAW STABILITY:	Minimum 3 cycles (A.S.T.M. Test D-3209-82)
SHELF LIFE:	Minimum 1 year from date of sale
CONTAINER SIZES AVAILABLE:.....	4 x 1 gallon jugs 5 gallon pail 55 gallon drum
