

GLASS RENEW

GR-822

HARD WATER SCALE REMOVER FOR WINDOWS

DESCRIPTION:

GLASS RENEW is a mixture of organic acid, detergent and mildly abrasive powders formulated to dissolve and remove hard water scale on windows. It quickly releases and dissolves the hard water salts, allowing the glass to be spotlessly cleaned. GLASS RENEW contains no fluorides and will not attack glass. Do not use on plastic windows (plexiglas) or very soft glass. Always test a small inconspicuous area prior to use.

APPLICATION:

SHAKE WELL BEFORE USING. Wet surface with sponge. Using rubber gloves, apply a small amount of GLASS RENEW on a soft scrub pad or sponge, and gently scrub the window until the glass feels slick. To remove the residue, spray, squeegee and wipe the window clean with SURTEC 909 Glass & Plexiglas Cleaner. If some hard water scale remains, repeat the process.

SPECIFICATIONS:

COLOR:	White powder
ODOR:	Citrus
DILUTION RATE:.....	Ready to use
METHOD OF APPLICATION:	Scrub pad or sponge
pH (20% solution):	1.0 ± 0.5
HMIS RATING:	Health = 1 Flammability = 0 Physical Hazard = 0
DETERGENT TYPE:	Nonionic
SPECIFIC GRAVITY:	0.5
FLASH POINT:.....	None (C.O.C. Method)
V.O.C. CONTENT:	Less than 1%
FLUORIDES:	None
GLASS ETCHING ACIDS:.....	None
SHELF LIFE:.....	Minimum 1 year from date of sale
PACKAGE SIZE:	12 x 7 ounce shaker bottles per case
.....	12 x 1 pound plastic cans per case
.....	7 pound pail
.....	18 pound pail
