SURTEC® CERTIFIED GREEN 925 ANILOX CLEANER AC-925 **GREEN CLEANER CONCENTRATE**

DESCRIPTION:

925 ANILOX CLEANER is a concentrated, environmentally friendly ink remover containing a balanced formula specifically designed for the fast complete removal of water washable printing inks on Anilox rolls and as a general purpose ink remover. 925 ANILOX CLEANER provides low foaming and easy rinsing. 925 ANILOX CLEANER contains no harsh solvents, is APEO free and, at use dilution, meets all CA air quality Graphic Arts VOC regulations including those of the South Coast AQMD, Bay Area AQMD and San Joaquin Valley APCD. VOC content at minimum dilution (1:4) = 21 grams per liter/l (0.17 lb/gal).

DIRECTIONS:

For heavy duty cleaning dilute each part of 925 ANILOX CLEANER with 4 parts of water for the removal of Flexo and water washable inks from anilox, metal and rubber printing rolls, dies and other equipment. For routine cleaning dilute 1 part 925 ANILOX CLEANER with 8 parts water. 925 ANILOX CLEANER is also effective for cleaning out ink lines. For difficult to remove glycol base inks, a prespray of 925 ANILOX CLEANER at higher concentration will provide quicker removal. As with any strong cleaner, rubber gloves should be used to prevent the removal of natural oils from the skin.
