TRUE COLOR™ ACTIVATOR

TC-408

CARPET AND FABRIC STAIN REMOVER

DESCRIPTION:

The TRUE COLOR SYSTEM has been formulated to safely remove stains from carpet and fabrics. TRUE COLOR breaks down hard-to-remove stains including red Kool-Aid(R), coffee, tea, red wine, and fruit juices, allowing the carpet to be cleaned thoroughly, without bleaching or fading. TRUE COLOR contains no chlorine bleach, acids or alkalis, is biodegradable, and is not harmful when used as directed. Always test an inconspicuous area for color fastness before using any carpet cleaner or spotter.

SURTEC TRUE COLOR may also be used as a "brightener" in combination with SURTEC DEEP CLEAN Carpet Shampoo to rejuvenate the color of carpet and upholstery.

DIRECTIONS FOR MIXING:

When mixing TRUE COLOR ACTIVATOR into solution, it will foam copiously (this foam is NOT HAZARDOUS). Always allow extra room in the mixing vessel for this foam.

Mix only as much TRUE COLOR solution as can be used within 15 to 30 minutes, as the cleaning efficiency decreases with time.

Spotting: Add one teaspoon of TRUE COLOR ACTIVATOR to one cup (8 fluid ounces) of warm water and stir until the TRUE COLOR ACTIVATOR is completely dissolved. As an alternative, TRUE COLOR may be added to UNIVERSAL BROAD SPECTRUM CARPET SPOTTER RTU (Ready To Use) at a ratio of 1 tsp. TRUE COLOR per 8 fl. oz. of UNIVERSAL SPOTTER.

Brightening: For each gallon of cleaning solution, add 3 oz. of TRUE COLOR to the dilution water before adding cleaner. For example, add 3 oz. of TRUE COLOR to 116 oz. of water, stir until the TRUE COLOR is completely dissolved, then add 12 oz. of DEEP CLEAN Rotary Shampoo and stir.

SPECIFICATIONS:

APPEARANCE: White granular powder
ODOR: None
SOLUBILITY IN WATER: 140 grams per liter
BIODEGRADABLE: Yes
HMIS RATING
Health = 1 Flammability = 0 Physical Hazard = 0
CHLORINE BLEACHES: None
SAFE FOR USE ON: Nylon, rayon, olefins, and other synthetic and natural fibers unaffected by water.
DILUTION RATE: 3% (see above for detailed mixing directions)
PACKAGE SIZES: 3 pound jar
15 pound pail

APPLICATION DIRECTIONS:

TRUE COLOR works best when worked into the carpet fibers, then left for an extended dwell time. Spots will disappear as time passes, sometimes taking several hours or longer for complete removal.

Spotting: Apply TRUE COLOR solution (after mixing as directed above) with a trigger sprayer, clean cloth or spotting brush. Work in well so that the nap is evenly wet in all directions. Carpet should be moist to the touch, but not soaking wet. Allow to dwell for a minimum of 15 to 30 minutes, keeping carpet moist during dwell time. After dwell time is up, proceed with normal cleaning process. Carpet may be shampooed, spin bonnet cleaned, or extracted.

Brightening: Mix as directed in mixing instructions. Shampooing is the preferred method if maximum brightening is preferred, but bonnet or extraction cleaning may be used.
