

THE SURTEC SYSTEM

SURTEC HOT SPOTTER 3 Gallon Heated Mini Extractor

Description

Innovative, powerful, clever. It's what we hear about our new 3-gallon spotter. Designed with simplicity and durability in mind and performance only found on large extraction equipment. 201 degree stainless steel in-line heater, 120 psi solution pumps leave this spotter clearly in a category of its own. Now add the industry's first "Noise Diffusing Exhaust Manifold" and a new definition of clever is an understatement.

Features
